

gprolog-utf8-tree/src
/EnginePI/gprolog.h

```
graph TD; A["gprolog-utf8-tree/src  
/EnginePI/gprolog.h"] --> B["stdint.h"]; A --> C["gprolog_cst.h"]
```

The diagram illustrates a header file dependency. A central box at the top represents the file `gprolog-utf8-tree/src/EnginePI/gprolog.h`. Two blue arrows originate from the bottom of this box and point downwards to two separate boxes below it. The left box contains the text `stdint.h`, and the right box contains the text `gprolog_cst.h`. This visualizes that the top-level header file includes both of these other header files.

stdint.h

gprolog_cst.h
